Role of the Admissions Board in the Admissions Process

Naval Academy Response – Question 8

The Admissions Board meets weekly between August and April of each academic year. The Admissions Board reviews the completed application files of every candidate who has applied for admission to the incoming class. In reviewing completed application files, the Admissions Board determines if the candidate's application file meets the Academy's qualifications for admission, and assigns a score known as a whole person multiple (WPM). The WPM is a tool that is used to assist the admissions staff in comparing candidates to determine which ones to provide offers of appointment once nomination lists are received from congressional and military related sources. The Admissions Board also makes recommendations for a year of preparatory study for those candidates who would benefit an additional year of academic preparation, but whose record of achievement exhibits unusual or exceptional talents or potential that would contribute to becoming a highly successful military officer. These include, but are not limited to, prior military service/military legacy, demonstrated leadership, unusual athleticism, overcoming significant adversity/hardship, unusual life experiences, fluency in another language, living in a another culture and first generation American/attend college.

Naval Academy Response – Question 9

9. Please provide a job description for Dave Davis, senior associate athletic director for compliance, admissions and academics.

Duties: Assists with the supervision of the evaluation, development, and implementation of a Department-wide program to ensure compliance with Academy, NAAA, Conference and NCAA rules and regulations with the Assistant Director of Athletics for Compliance.
